

ATHUL K

DATA ANALYST

PROFILE

I have strong experience in using Python for data analysis, along with tools like PowerBI and Tableau for visualization. I'm proficient in libraries such as Pandas, NumPy, and Matplotlib for data manipulation and visualization tasks. Additionally, I apply machine learning techniques using the Scikit-learn (Sklearn) library to build predictive models. My skills enable me to analyze data effectively and present insights clearly to stakeholders.

SKILLS

- Python
- PowerBI
- Tableau
- Sklearn
- Pandas
- NumPy
- Matplotlib
- MongoDB/MySQL
- Gitgub

WORK EXPERIENCE

One and a half years of practical coding experience in HTML, CSS, Bootstrap, PHP, Laravel, Python, JavaScript, MEAN Stack, Django. Skilled with MySQL, MongoDB, IBM Cloud databases. Proficient in Power BI for data analysis. Familiar with networking and hardware. Worked on a real time project during ADIT course.

Projects

IT Website

Proficiently crafted a website for savvy IT Solutions using HTML, CSS and Javascript featuring comprehensive company informations and services.

Job finding platform

Jeet Agency connects job seekers with positions in industries like construction, manufacturing, and transportation. They also help businesses find qualified candidates to fill their job vacancies.

Unemployment Data Analysis

Our project, "Unemployment Data Analysis," explores both historical and current unemployment data to identify trends and factors impacting unemployment. We analyze demographics, regional variations, and economic factors to offer actionable insights for policymakers, economists, and job seekers, aiming to address this important societal issue.
